Professional Sheet Metal Processing

Modern – Comprehensive – Professional

We use the latest CNC technologies, enabling us to meet even the most demanding requirements of our clients. Our specialties include laser cutting, punching, bending, machining, straightening, welding, and assembly.

What sets us apart is our personal approach to customers and our precise work processes. We carefully review your production documentation, including all details, and propose the ideal technological solution with a focus on efficiency and manufacturability. Thanks to our expert and lifelong knowledge, we can deliver true results that truly meet your requirements. Just as we value high-quality parts, we also prioritize flexibility towards our customers.

Complete Manufacturing from A to Z

**Continuous
24/7 operation**

**High-tech
equipment**

**Unique
know-how**

**Comprehensive
A-Z production**

What do we excel at?

MATERIAL CUTTING

Laser cutting

- sheet thickness: 0.8 – 30 mm
- max sheet size: 6000x2500 mm

Punching

- sheet thickness: 0.5 - 8 mm
- max sheet size: 3000x1500 mm

Band Saw

- max cutting size: 300x320 mm

FORMING AND MACHINING

CNC bending

- max tonnage: 3200 kN
- max length: 4000 mm

CNC straightening

- max part width: 1300 mm

CNC machining

- 3-Axis vertical center
- table size: 1270x650 mm

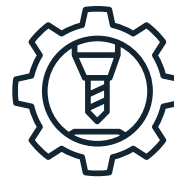

BLACKSMITHING WORKSHOP

Welding

- methods: MIG/MAG and TIG
- welding tables: 3000x1500 mm

Deburring

- max part width: 1000 mm

ADDITIONAL SERVICES

Assembly, Packaging, Transport

Powder coating

Electrogalvanizing

Hot galvanizing

✓ We manufacture both **single-item** and **thousand-piece** orders

✓ We process parts with **high precision**

✓ We can process even the **most complex** shapes

We only offer what we are capable of producing.

Our Projects

Thanks to a wide range of high-quality machinery, we are prepared to respond flexibly to the diverse needs of our customers. **Reliability, precision, and a focus on quality** are a given for us, making us a trusted partner for industrial projects of all kinds.

About Us

Our company is based in Rousínov, in the South Moravian region, and we have been operating in the market since 2008. We specialize in custom sheet metal fabrication. Thanks to modern technologies such as laser cutting, bending, and welding, we offer not only precise cut parts but also fully finished components, including packaging – all tailored to your exact requirements.

In 16 years, we have expanded into a production facility covering 6500 m², and today our team consists of 75 experienced professionals. We focus on quality, safety, and environmental responsibility. Our commitments are confirmed by certifications including **EN ISO 9001:2015**, **ISO 45001:2018**, and **EN ISO 14001:2015**.
